AGILE PROCESS

We use Agile methodology to deliver solutions through iterative, collaborative, and flexible stages. This approach ensures we adapt quickly to changing needs, deliver measurable value early, and continuously improve for the best possible outcomes.

Flexible Delivery

Adaptable to change and evolving business needs.

Continuous Feedback

Client collaboration at every step drives better results.

Faster Improvement

Iterative progress enables quick value delivery and ongoing refinement.

نوافذ الإبتكار
NWAFTH AL EBTIKAR

Our Services

End-to-end technology and digital solutions designed to secure, transform, and accelerate enterprise growth.

Mobile & Web Development

Custom digital products, web platforms, and mobile applications built for performance and scalability.

Cybersecurity, Governance, Risk & Compliance

Integrated cybersecurity, GRC, and risk solutions that protect critical systems and strengthen regulatory compliance.

Personal Data Protection Law (PDPL)

End-to-end privacy and data protection solutions aligned with Saudi PDPL and SDAIA requirements.

Disaster Recovery (DR)

Resilient disaster recovery solutions that protect critical data, ensure business continuity, and minimize downtime.

Artificial Intelligence Solutions

Intelligent AI solutions that automate processes, generate insights, and improve business decision-making.

Outsourcing Services

Dedicated technology teams that extend your capabilities with specialized development, design, and technical expertise.

Marketing & Digital Growth

Strategic marketing, digital campaigns, and creative solutions designed to strengthen brands and accelerate business growth.

نوافذ الابتكار
NWAFTH AL EBTJKAR

Mobile & Web Development

Custom Digital Products, Designed for Growth

We design and develop native and cross-platform mobile applications along with responsive web platforms tailored to your business needs.

From UI/UX design and backend architecture to API integration, every solution is engineered for performance, security and scalability.

Use Case:

We developed a fully integrated web portal and mobile application for the Saudi Food & Drug Authority (SFDA) to manage product registration, licensing requests and digital services, significantly improving operational efficiency, enhancing user experience and accelerating service delivery.

Native & Cross-Platform Mobile Applications
(iOS / Android)

DIGITAL SIGNATURE

Legally Binding and Trusted, Anytime, Anywhere

Our digital signature solution gives every signed document complete trust and verified identity authentication.

Sign documents within seconds through a mobile application, email, or the Nafath National Single Sign-On platform, ensuring full compliance and a secure audit trail for every signature.

Use Case:

Kingdom Hospital replaced traditional handwritten signatures for medical and administrative approvals with Nwafth Al Ebtikar's Digital Signature Solution, reducing document approval time from days to minutes while maintaining full compliance and protecting patient privacy.

- Complete Identity Verification and Tamper-Proof Signatures
- Sign via Mobile App, Email Link, or Nafath Integration
- Legally Recognized under Saudi Electronic Transactions Law
- Complete Audit Trail with Secure Encrypted Document Storage

Cybersecurity, Governance, Risk & Compliance

Integrated Governance, Risk & Compliance Across Every Layer

We combine Governance, Risk and Compliance (GRC) frameworks with enterprise cybersecurity solutions, from vulnerability assessments to Security Operations Center (SOC) management, helping organizations comply with National Cybersecurity Authority requirements while strengthening resilience against modern cyber threats.

Our integrated approach protects critical systems and sensitive data through continuous monitoring, rapid incident response, secure identity management and proactive security operations.

Use Case:

Nwafth Al Ebtikar implemented a comprehensive cybersecurity program for Kingdom Hospital, including National Cybersecurity Authority (NCA) compliance, vulnerability assessments, and protection of medical and administrative systems, significantly improving the hospital's security posture and readiness for regulatory audits.

- Vulnerability Assessment & Penetration Testing (VAPT)
- National Cybersecurity Authority (NCA) Compliance
- Security Operations Center (SOC) & Threat Monitoring
- Incident Response & Identity and Access Management (IAM)

Personal Data Protection Law (PDPL)

Full Compliance with Saudi Personal Data Protection Requirements

We support organizations throughout every stage of Personal Data Protection Law (PDPL) compliance, from Privacy Impact Assessments and policy development to governance implementation and data management, ensuring complete and demonstrable compliance.

Our experts help organizations strengthen personal data protection, enhance governance practices, improve workforce readiness, and comply with the requirements of the Saudi Data & AI Authority (SDAIA).

Use Case:

Nwafth Al Ebtikar successfully implemented a comprehensive PDPL compliance program for Dallah Clinics, including Privacy Impact Assessments, data protection policies, data classification, and employee awareness programs, significantly improving regulatory readiness and compliance with SDAIA requirements.

- Privacy Impact Assessment (PIA)
- Data Protection Policies & Governance
- Data Classification & Data Flow Mapping
- Continuous Compliance Monitoring & Employee Awareness

Disaster Recovery (DR)

Business Continuity by Design

Our Disaster Recovery as a Service (DRaaS) solution keeps your mission-critical applications and business data protected, replicated and continuously available.

With automated failover, near-zero recovery objectives and real-time data replication, your organization remains resilient and operational even during unexpected disruptions.

Use Case:

Nwafth Al Ebtikar implemented a comprehensive Disaster Recovery solution for Targeem Company, including continuous real-time replication and automated failover between data centers, enabling critical business services to be restored within minutes with zero noticeable impact on customers.

- Automatic Failover & Failback
- Recovery Time Objective (RTO) under 15 minutes with near-zero Recovery Point Objective (RPO)
- Continuous Real-Time Data Replication
- Regular Disaster Recovery Testing Without Business Disruption

Artificial Intelligence Solutions

Practical AI for Real Business Impact

We design and deploy intelligent AI-powered solutions, from business process automation and advanced data analytics to virtual assistants and predictive models, helping organizations improve efficiency, accelerate decision-making and unlock valuable business insights.

Our AI solutions are tailored around your organization's data and operational objectives, delivering measurable business value through intelligent automation and data-driven innovation.

Use Case:

Nwafth AI Ebtikar developed an intelligent AI virtual assistant for Fakeeh Care to handle patient inquiries, appointment scheduling and frequently asked questions 24/7, significantly reducing response times, enhancing the patient experience and enabling customer service teams to focus on more complex cases.

- AI-Powered Business Process Automation
- Predictive Analytics & Data-Driven Insights
- Intelligent Chatbots & Virtual Assistants
- Custom Machine Learning Models

Marketing & Digital Growth

Strategic Marketing, Built for Business Growth

We develop data-driven marketing strategies and creative digital campaigns that strengthen brand presence, engage target audiences, and drive measurable business growth.

Our approach combines strategy, creative content, digital advertising, and performance analytics to build stronger brands and deliver sustainable results.

Use Case:

We help organizations build and execute integrated digital marketing strategies, from brand positioning and content creation to paid media and performance optimization, enabling stronger market presence and measurable customer growth.

01
Digital Marketing Strategy

Data-driven strategies aligned with business objectives and target audiences.

02
Content & Creative

Engaging visual content and campaigns designed to strengthen brand identity.

03
Performance Marketing

Targeted paid campaigns optimized for reach, conversions, and ROI.

04
Social Media Management

Strategic social presence that builds engagement, awareness, and customer relationships.
